Humber Offshore Wind Cluster Prospectus

The Humber Offshore Wind Cluster has produced a prospectus which documents the incredible journey of the offshore wind sector in the Humber region. With contributions from stakeholders from across the cluster we have set out our collective vision for the future, and how this leading regional cluster can move forward to the next stage. Working together we will build on the success we have already achieved as we look to build capability, strengthen knowledge and increase employment, in our pursuit of clean energy and in our ambition to be net zero by 2040.
